

PALLET POSITIONER Ergonomic Solutions to Help Reduce Employee Fatigue

Rotating ring minimizes worker movement, increasing productivity while helping reduce injuries due to bending and reaching. All models feature heavy duty welded steel construction. **Carousel** is ideal for applications that require easy load rotation only. Designed to be used on a floor or table. 40" O.D., 36 1/2" I.D., 2 1/8" H. **Pallet Stand** offers height adjustment benefits. Positive locking mechanism helps ensure worker safety. Choice of 20", 31" and 35" height settings. **Pallet Stand/Carousel** combines the benefits of height adjustment and rotation. Heavy duty 40" x 45" platform and 40" O.D. carousel welded to stand. 22" lowered height with 33" and 37" raised height positions.

EZ Loader Self Leveling - Positioner is a true ergonomic tool. As the load changes, the positioner **adjusts automatically**, keeping top of the load at convenient working height. Proven Firestone Airstroke Actuator pneumatic support system. Totally **self-contained** and does not require constant air source (requires initial air pressure of 16 to 75 psi). **Forkliftable**. Built-in air gauge and pressure relief valve. 48" L x 30" W base and 43" O.D. carousel. 8 3/4" lowered height and 30" raised height.

Presto PALLET POSITIONER Automatic Load Leveler with Carousel

Build or breakdown pallet loads with a minimum of bending or reaching. **Self-Leveling Positioner automatically maintains pallet at a consistently comfortable work height.** As layers of product are added or removed, a combination of a permanently mounted spring and reinforced rubber airbag assures work remains at an ergonomic height, increasing productivity. Limited lifetime warranty airbag is completely protected to prevent accidental puncture. **Fully self-contained and does not require a constant air source.** Simply charge the unit via single air connection (requires initial air pressure of 7 to 62 psi) and integral fork pockets allow easy movement by forklift. Complete with air pressure gauge and relief valve. **400 lbs. minimum/4500 lbs. maximum capacity.** Large 48" L x 36" W base has wide footprint for stability and does not require unit to be lagged to the floor. 43 5/8" OD carousel, with 9 1/2" lowered height and 30 1/2" raised height. **Limited 2 Year Warranty.**

Presto FLOOR LEVEL 6000 lb. capacity LIFT & TILT TABLES

Position work at a comfortable level to help improve efficiency, productivity and worker safety. Ideal for assembly work and machine operations. Constructed of heavy gauge steel for strength and rigidity. Adjustable height helps eliminate the bending and stretching required when using standard baskets and boxes. Floor level platform allows you to use a pallet truck or hand truck to quickly load and unload equipment. Ramp for easy access. Portable, compact 1 HP 115V, single phase motor can be moved to suit environment. Toe guard/safety edge helps protect workers from injury. **Lift Table** raises and lowers contents to provide individual workers with a personalized working height to insure correct posture. Travel raised height is 33 3/8". Especially suitable for use with pallets. **Tilt Table** tilts contents from 0° to 45° to help eliminate undue stress on workers. Allows you to angle containers so parts are within sight and reach. Available with either a push button hand control with 8' coil cord or a foot control, add (H) for hand or (F) for foot to Model no.
